

Mountain Lion Cub News

Dear Families,

The new year is off to a running start! We are enjoying seeing all of the growth, independence, and maturity that is happening within all of our wonderful students. We are truly blessed to be a part of your children's lives.

Miss Andrea and Miss Jackie's students have continued to grow in love for Jesus and this month they focused on the friendships that they share with one another. In January, the students had fun making kites and flying them as they learned the letter k. Their teachers are finding so much joy seeing the students academic growth as they are able to identify more letters, shapes, and numbers each day. During Catholic Schools Week the class enjoyed a sunny picnic together as the school celebrated it's students.

In January, Miss Amber and Miss Melissa's class worked on using new words to describe feelings which is an important part of their social/emotional development. They had fun with water science where they performed experiments and explored solids, gasses, and liquids. The students also participated in snow activities such as playing in pretend snow, a snow relay race, and making snow crafts. The teachers created an Antarctica center in the classroom complete with icebergs and penguins. They used sign-in system which allowed everyone to be able to enjoy time there. Lastly, the Pre-Kindergarteners learned about healthy foods and that many of these foods can be grown right at home.
