March

CLASSROOM NEWS

Our Pre-Kindergarteners have been engaged in an outer space unit this month! They now know so much about the planets and dwarf planets, the sun, moon, and stars. They have explored space travel as well as some well known astronauts and their accomplishments. They even created a rocket ship of their own for their dramatic play area!

SPOTLIGHT ON DEVELOPMENT

Health & Safety

Young children love to learn about healthy habits and being safe. In Preschool it is part of our daily routines. You can support your child's learning in many ways. Ask them to help you plan healthy meals and snacks. Remind them to count to 20 out loud when hand washing. Explain to them the importance of wearing a helmet while riding a bike or scooter. Together we can help keep kids safe!

PYRAMID MODEL FOR FAMILIES

Young children love your attention - especially when you are on the phone, computer or when you're talking to someone else! Teaching your child an appropriate way to get your attention when you are occupied can go along way in helping everyone get what they need. Check out this month's Backpack Connection Series article with tips to help you do just that!

LIGHTING THE WAY FOR FAMILIES

"but those who hope in the Lord will renew their strength. They will soar on wings like eagles; they will run and not grow weary, they will walk and not be faint." **Isaiah 40:31**
