

ICCS Preschool News

STEM Challenge

Miss Angela and Miss Melissa's class took on a fun STEAM engineering design challenge based on the book Goldilocks and the Three Bears. After listening to the story, their challenge was to build a chair out of loose parts (everyday re-purposed items) that would hold a piece of wood which was their "bear". These preschoolers are building strong problem solving and critical thinking skills.

Learning About the Continents

Miss Jylian and Miss Michaela's class have been learning all about the continents of the world. They have learned a fun song to help them remember the names of the continents and all sorts of interesting information about each one. They have an interactive map in their classroom that they can use anytime to help deepen their learning.

Developmental Highlight

Taking Turns

Sharing can be tough for Preschoolers. This is one of the many important social skills that our students learn during their time at school. There are many strategies that our staff uses to help our students learn to share, and teaching turn taking is one of them. We see these students practicing taking turns with the materials in the outdoor classroom space and doing a fantastic job!

Teacher Fun Fact

Did you know that Miss Michaela played flag football when she was in high school? She was the only girl on the team!

Encouraging Words for Parents

Do not be anxious about anything, but in every situation, by prayer and petition, with thanksgiving, present your requests to God. And the peace of God, which transcends all understanding, will guard your hearts and your minds in Christ Jesus.

Philippians 4:6-7
